I am a Web Developer focused and specialized on the Front-End stacks. since 2016, I have learned and been working with HTML, CSS/SCSS, JavaScript, jQuery, Angular with Typescript, React with Redux, WordPress, PHP, MySQL. I am Passionate about building new things and solving logical and technical problems. I always look for the opportunity where I can work on and build something that is user-centric and helps the end-user to fill their void.

Experience
